Navigating a Roundabout: Emergency Vehicles

What to do when an **emergency vehicle approaches a roundabout**

Drivers are trained to pull over when an emergency vehicle is approaching because it's the law.

In the case of roundabouts, motorists must clear a roundabout if they hear (or see) an emergency vehicle approaching.

Motorists should immediately exit the roundabout when it's safe to do so.

Roundabout Key

1. Do not enter a roundabout when an emergency vehicle is approaching from another direction.
2. Prior to entering the roundabout, move to the right so the emergency vehicle can safely pass.
3. If you are already in the roundabout, do not stop because the emergency vehicle may not be able to safely pass.
4. After you exit the roundabout, move to the right and stop so the emergency vehicle can safely pass.
